3D Printer: Part 2

By Nicole W, Fatima K, and Syian P

Laurie Segal from CNN talks about the 3D printer, you can print car parts, casts, tools, even sunglasses. The people say, "they want to make the 3D printer a common thing, something that everyone can have in their homes." Garrett was in critical condition. His parents took him to the Michigan hospital, and Green obtained another emergency clearance from the FDA. After doing a CT scan of Garrett's trachea and bronchi, Hollister used a 3D printer to create a splint out of a biopolymer called polycaprolactone.

On January 31, Ohye sewed the splint around Garrett's right and left bronchi to expand his airway. The doctors say the splint will be absorbed by Garrett's body during the next three years as his airways grow stronger. In the meantime, Garrett is breathing easier and needs less help from the ventilator. "It is a tremendous feeling to know that this device has saved another child," Hollister said in the press release.

"We believe there are many other applications for these techniques, but to see the impact living and breathing in front of you is overwhelming." "Severe tracheobronchomalacia has been a condition that has frustrated me for years," added Green. "I've seen children die from it. To see this device work, for a second time, it's a major accomplishment and offers hope for these children."

From [CNN.com: Breaking News, U.S. World, Weather ...](#) once again the 3D printer saved a life. This new technology can print hearts and lungs, this is truly a new beginning of mankind.

Extra Point Rule

In the NFL they have changed the field goal rules. Now for a field goal have to kick the 15 yards away. nfl vice president of officiating dean bland said " Teams can change their attempts decision if a penalty occurs." For instance, if a team chooses to go for a two point conversion and is called for an offensive penalty, they have a decision to go for a one point try. Instead of kicking it from the two yard line, they will kick from the fifteen yard line.

Mobile

By: Caleb, Davis, Madeline, and Nina
Have you noticed that our school now has a mobile? We asked Mr. Parra to give us a tour of the new building. He stated that he was happy with the outcome of the project. "I have to check to mobile at least twice a day to make sure that everything is working properly." The gas runs from room 35 to the mobile, the air runs from the basement, and the electricity comes from the gym.

The construction of the mobile took around 2 months and once it was done Mr. Parra took a look at it. "It was not ready." He realized the carpets were ripped up, the walls were dirty, it was a mess. However, Mr. Para started to clean it up. He added new lights, walls, tables, and a telephone line. After 9 weeks of cleaning, the mobile was ready for use. Multiple companies came to set up the gas, air conditioning, and water.

We went deeper into this topic, interviewing Savanna Drevon, a student who has a class in the mobile. "I like it because there is more space in the

school and it's actually really nice." We went on and asked her what the downfalls would be and she said if you have a drill such as a lockdown or a tornado warning she said, "Wouldn't know what to do." What do you think of the new mobile?

California Drought

By: Savannah D. Michelle V. Ashley V.

The California drought is one of the biggest droughts in history. As stated by CA.gov, "\$30 million in rebates to help replace old toilets and turf." On August 18, 2015, the San Diego water board cracks down leading to pollution. However, there is some hope, very little bit, but for California, they need all the hope they can get for more water. A climatologist has said, "Historical weather data shows us that at best, there is 50/50 chance for having a wetter winter. Because of this major drought, California's ground is sinking. Here is a picture explaining why the ground is sinking.

The water from underground is decreasing, so the ground above is basically caving in. Conserving water is very important in California. They need to not waste water, which most people do. For example, people take around 30 minutes showers. Seriously, that's way too long for a shower and way too much water wasted. Everyone should conserve water by taking shorter showers, and turning off the faucet when brushing your teeth.

Back to the NFL

By: Christian, Walter, Mackensi

The NFL season is about to start, and the quest to the Lombardi trophy begins once again. Many different people like many different teams including teachers at this school. Mr. Gibbons likes the Denver Broncos, Ms. Leggett likes the Oakland Raiders , and Ms. Torres likes the Seattle Seahawks.

Each person has different expectations for their teams. Mr. Gibbons said, "12-4, and win the Super Bowl over Seattle." Ms. Torres said, "I think they are kind of high and good but not as good as the past 2 years." Ms. Leggett has different expectations for her team. She said "They're going to rock it! They're going to win 2 games" No matter we still all love the game of football.

Ms. Leggett actually has a closer connection to football. Her dad was a player and a head coach along with her brother who was a player for the saints.

This year, some teams have some tough competition, and will play good games, but in the end, only one can win. Football season is always a great time of year and it's coming up again. Everyone can't wait and you won't have to wait any longer because the 2015-16 NFL season is under way. Let's go!

Deadpool Movie

By Judd B, Isaiah C, Calvin O

Warning:This movie isn't intended for younger audiences! Most likely to be rated PG-13 or R.

Deadpool, an ex special operatives man who was diagnosed with cancer in the liver, lungs, prostate, and brain. With no options, Wade Wilson is suddenly offered to join the Weapon X program (Yes, the same one Wolverine

was on) after he was given his powers of regeneration, he was isolated to the prison of Genosha. The inmates there had a mosh pit of sorts called the Deadpool (Hint hint, that's where he got his name). In the end, Wade and the other inmates took over the prison and escaped, and Wade took on the persona of Deadpool. This movie will be his origin story of woe.

Deadpool is a very interesting because he is not a superhero nor a super villain, he will do anything for money, but if put in the situation, he could save the universe from total destruction. But with his personality and his regeneration, he has become very careless with fighting. Even when a skyscraper fell on him, he still managed to make a joke! Or when he was literally melted, he got back up from that!

Deadpool is also known to break the fourth wall, as in talking to the audience. Somehow he'll know if he is in a game, movie, television show, even once he even tore through his own comic to check on something he forgot about. His main weapons are his trusty rusty twin katanas, double desert eagle pistols, his teleportation belt, but he also carries something called a cartoon bag. Have you ever seen a cartoon character whip an object out of nowhere, well Deadpool can whip out a minigun or rocket launcher from nowhere. Whether it be going across the galaxy just for one dollar or having a thoughtful talk with his other two personalities Deadpool can be a great superhero!

Wrestling

It's close to that time of year people! That time of year where two people use style, form, and technique to bring down their opponent on a mat that hasn't been cleaned. You got it; wrestling season!

Ah, I can smell the energy drinks and sweat now. Maybe you're thinking of joining this year but not quite sure. Well to help you make that decision we have gathered info just for you. An insider's look to wrestling, the one who makes it all possible: the wrestlers.

Every day after school you would go to the gym and practice.

We interviewed Christian Drevon, a second year wrestler here at our school. He says, "You got to keep yourself motivated and positive even when you lose. If you have a negative mindset, you don't have a chance at winning. Keep your teammates positive too. That's the key to it all. And even though we didn't win last year, we are determined to win this year."
