3015

By: Madeline, Caleb, Nina, and Davis

It was the year 3015, one thousand years from 2015...my time period. I am Austerberry, which means that I travel into the future to make sure that human life doesn't end. Now, I am checking the year 3015, and it looks both amazing and terrifying. There is no more open land, instead cities cover the entire world, and the cities are completely different. Instead of being made of brick and windows, they are completely silver, made out of metal, and have no windows. There aren't any roads or alleys, now there are flying cars, and hoverboards. The world is completely different, I can't believe my eyes.

Today I am exploring the new facilities, I am starting on the uber generator where energy of the future is created. A clean new renewable source that everyone uses, we like to call it Chopstick 1000 E.V 20000 Uber Generator thingy created by Blaine Charles David. The energy is created when humans breathe with a mask on their face, as they exercise on a fly-mill, or a flying treadmill. I am going to pretend to work in this unbelievable warehouse.

I start my car, by just saying the word start. It starts up and then it began to talk. "Where would you like to go?"

"Take me to the Chopstick 1000 E.V 20000 Uber Generator thingy created by Blaine Charles David"

"Ok, setting destination point to, Chopstick 1000 E.V 20000 Uber Generator thingy created by Blaine Charles David".

The ride was smooth and fast, for there was no traffic because we were in the air. I arrived in no time. It had huge silver gates, but didn't have posts to block the way. Instead, there was just a translucent thin shield around it. I tried to pass this shield, but whenever I walked into it the world went black, and I just went into a circle in the ground. I was being transported.

A robot greeted me, "Hi my name's Jeff! You must be the new intern! Follow me lad." I followed Jeff who was completely silver and hovered over the ground. "To get pass this gate you must have a pass and we have to put your blood type into the computer. Let me scan you."

"Okay." A red laser came out of his eyes and first traced my silhouette. After, a wide laser came out of his mouth and scanned the area of my body.

"Done sir..."

"Don't you have to take blood out of me?"

"No, that stopped in the 2060s." Then, a lanyard with my face popped out of Jeff's mouth, looking exactly like me.

"Go ahead!" I walked through the shield again expecting to teleport to the

circle, but surprisingly I passed. The room was very open, and once again completely silver with taps of blue. There were fly-mills everywhere in the room, next to each other and over each other. Behind them was a big Octahedron shaped tesla thing. It had sparks of electricity shooting out of it in all directions.

I already knew what I had to do at this facility. Right away I jumped onto one of the open fly mills, put on my mask, and began running. For the next three hours, I spent little of my time running on the fly-mill, most of the time going to the bathroom and watching TV.

Then, as I returned to the fly-mill, the boss called me to his office. He explained to me that he knew that I was new, but I needed to start running more because the Earth was very polluted and he needed me to keep running to keep the clean energy. After he scolded me, he opened up the blinds behind him, in his office, and all I saw was black. Instead of the air being transparent, it was pitch black. Even though the year 3015 was amazing, it was full of pollution and was very unhealthy. I had to fix this, by going back to my time period and stopping pollution. I also have to start running on my treadmill more!

Books VS. Movies

Alexiss R

Most people like books more because they have more details and books come out long before a movie. Other people like Movies because they don't want read the whole book. I prefer books because it might not have a movie, but it depends because some movies add some scenes, and take out scenes, but that can be a bad thing too. In the movie Divergent it was almost exactly the same as the book but the book had some scenes that the movie didn't. Books can be better because it explains what the people are thinking, and it gives more detail about what they're doing. Most book's don't make movies, so you should read the book. Movies can be better because some movies don't have a book, like a book so you should see the movie. If you read the book and the movie comes out you should watch it so you can tell the differences between the book and movie.

Pros/Cons of Older/Modern Rock Music

By Curtis and Sonny

Everyone has their own opinion if Modern Day music is better than Older music. Some great older music is Lynyrd Skynyrd, Metallica, Pink Floyd, NickelBack. Some modern rock bands are Fall Out Boy, Linkin Park, Hinder. At the end of the day everyone has their own preference if they like older or more modern music. Our favorite old music is Metallica, and Nickelback. Our favorite modern music is Linkin Park and Hinder. Older music is more soothing than more modern music and in modern day music the bands talk about violence, and drugs. A bad thing about older rock bands is that they started the songs about drugs and violence. Modern day music has good rhythm and beats to the songs. Modern music is louder and more graphic than older types of music. Those are the Pros/Cons of older and modern rock music.

A Weird and Unusual Thanksgiving

By: Isaiah C.

Warning: This story is extremely weird do not attempt to read if having high expectations!

On the last Wednesday of November, the bell of chickens rang out across the land, they were also celebrating Thanksgiving due to the hunting of their

mortal enemy, the Turkeys. This time, though, the humans wanted something different, something else like Turkey but not Turkey. They wanted: *gasp* *insert major plot twist music here* CHICKEN!!!

The chickens, once they heard the news ran around like chickens with their heads cut off, which was kinda ironic since that was about to literally gonna happen if they didn't run. The chickens ran for their lives, and only stopped a few hundred times to eat seeds. The chickens believed they were being hunted, when in actually a trained chicken was actually just gonna start the Thanksgiving feast.

The chicken was then considered the MVP of the human world for the day. Until space invaders came from outta nowhere and a space chicken by the name of "Darth Nuggets", a modified chicken. Then Darth Nuggets jumped on the table of the Chicken MVP, and did the classic Star Wars thing, he said "Chicken MVP, I am your father." And, everyone there had a hardy laugh at the entire event. Who knew, this Thanksgiving would cause such a crazy ruckus, because the chickens certainly didn't think so.

Plot Twist Inbound: But then, the turkeys started a revolt and then the Aviary War broke out, a full out Thanksgiving family brawl between the Turkeys and Chickens. Then one human, who stood above them all said, "What are you doing?!" The battle ceased to live, and they all turned their attention to him. "You guys are just destroying our humble abode, and this is a family dining room... Not a Warzone." the dude said, and gave them a disapproved look.

The Chickens and Turkeys stopped and then teamed against the humans, causing chaos. Let's just say the humans never had anything that looked like chicken or turkey, even remotely, on Thanksgiving.

Suicide Prevention Program-Middle school only By: Mercedes C. and Sarah S..

As you know, our school has a suicide prevention program currently going on called SOS (Signs Of Suicide). We are taking this course to the last 45 years suicide rates have increased by 60% worldwide. Suicide is now among the three leading causes of death among those aged 15-44 (male and female). Suicide attempts are up to 20 times more frequent than completed suicides.

Bully victims are 2 to 9 times more likely to consider suicide than non-bully victims. 10 to 14 year old girls have an even higher risk of suicide. Suicide is the third leading cause of death among young people, resulting in 4,400 deaths per year, according to the CDC (center of disease control).

About half of the suicides are because of bullying, stated by a British study. American high school students say that, over

the course of one year 14% have seriously considered suicide 11% have made plans for how they will end their lives, and 6% actually attempted to commit suicide. And to think, there are 16.3 million high schoolers in america. In Colorado there is an average of 629 kids in one high school.

They have a way to help people in need: ACT. A; Acknowledge that the person has a serious problem. C; show that you Care about them and their dilemma. T; Tell a trusted adult about you or your friend's problem. If you or anyone you know shows any signs of suicide or The National Suicide Lifeline 1-800-273-TALK (8255).

Volleyball

By: Savannah D, Ashley V, Michelle V

Girl's volleyball season is coming this month! There's not much time left so make sure you sign up soon! It's available to girls in 6th to 8th grade. We asked a few questions to an Aurora Frontier volleyball player who played last year and will play again this year.

We asked her, "What advice would you give to nervous beginners?"

We also asked, "Do you think that we can win the championship?" She said, "If we have a good team that works together, we can!"

Finally we asked her "Do you rely and depend on your teammates?" She responded with "Yes, we have to trust each other and work together."

Volleyball starts Monday, November 16th. Make sure you have paid the \$33 fee or, if you have already paid for two sports, you can play for free! You can sign up even if you're a beginner, don't worry they'll welcome you with open arms. Soon enough you'll be an expert so go join the volleyball team! If you want more information about volleyball, go to the Aurora Frontier website or contact Mr. Buckley, one of the volleyball coaches.

End of Soccer and Wrestling

By: Christian, Mackensi, and Walter

Girls soccer and boys wrestling seasons are both coming to an end. So far both seasons has gone great. All the boys and girls have put in a lot of hard work to get to where they are. Girls soccer A team ended with a record of 5-2 and B team is still an undefeated 6-0 and going to the championship. In wrestling 6 boys are going to championships and 1 going to the third place match. Even for the people who didn't make it they have done such a great job this year and kept fighting till the end. The championship is on Saturday, November 14th. The wrestling team will be at Central High School, and the meet will start at 8.

Girls' soccer B team will be at Hinkley High School. They will play at 11:45. All of the coaches have done a great job as well this year. They have put in a lot of time and effort to teach these kids what they know. Everyone one is very happy with the coaches they had. Thanks to Mrs. Boyle and Mr. Parra the girls soccer coaches. Also thanks to Mr. Para, Mr Drevon, and Mr. Thompson the boy's wrestling coaches. Good luck to all the boys and girls in the championship. LET'S GO AURORA FRONTIER

Results: Girls soccer B team won the championship over Quest 1-0!

- Tarrent Thompson 103, Spencer Ohu 107, and Max Silva 199 were city champions
- Aleks Gomez 127, Dillon Miller 90, and Allen Adame 107 finished in 2nd place
- Christian Drevon 120 finished 3rd place
- Dillon Weiser 87 finished in fourth place
